ABOUT ME

Motivated and passionate Full Stack Developer with a strong foundation in frontend and backend development, databases, and data-driven problem solving. Eager to build a career in full stack engineering, with a strong willingness to learn, adapt, and grow while working on real-world software applications. Skilled in research, development, and continuous learning, with a goal of contributing to the future of technology through scalable and impactful solutions.

SKILLS

- Languages: Python, Java, Dart, JavaScript, SQL, JSON
- Frameworks / Libraries: Django, Pandas, NumPy, Flutter, NLP/LLM, Text-to-Speech (TTS)
- Tools & Platforms: VS Code, Jupyter Notebook, Git, GitHub, Node.js, npm, Figma, Trello, Discord, Google Colab, Android Studio, IntelliJ, PDF Viewer (Python Integration), Tkinter, Cloudflare, Render
- Databases: MySQL, MongoDB, SQLite
- Architecture / Patterns: MVVM, Bloc Management
- Other Skills: Agile workflows, debugging, computer fluency, multitasking across tools, project management tools (Trello), design & prototyping (Figma, Canva), exposure to AI & NLP concepts

PROJECT EXPERIENCE

Fullstack Development | K.K Cosmetic | www.kkcosmetic.com.np | Live

- Worked on creating and updating both frontend and backend of a cosmetic website.
- Completed the user requirement and made the page responsive.
- Connected the backend and frontend online.
- Deployed the website to the official domain and secured it.
- Worked on creating and updating a AI beauty assistant.
- Managed the AI assistant to follow the system instructions.
- Deployed and connected the backend with the official page.
- Merged the AI assistant with the official website and deployed it.

PROJECTS

- **BuddyPay - A Digital Wallet (WEB & MOBILE APP)**
MERN, Flutter, MongoDB, MVVM architecture, Node.js, Bloc management
- **AI Counsellor - Interactive AI Counsellor for College Students**
Python, Jupyter, Tkinter, Rasa, MySQL, AI, OpenCV
- **Zing - A Dating App(MOBILE APP)**
Flutter, JavaScript, MongoDB, MVVM architecture, Node.js, Bloc management
- **VitalFlow - Healthcare application (WEB)**
Python, Django, MySQL, agile, trello

EDUCATION

- BSc (Hons) in Computing | Coventry University 2022-2025
- Higher education in Science and Computer Science | Kanchanjunga Collage 2020-2022
- Schooling | Newton Ed. Academy ~2020
